OUR PRODUCTS

1 LAMINATE FLOOR

Laminate wooden floors are the perfect blend of style, durability, and affordability, making them a top choice for modern homes, offices, Boats, ships, etc. Designed to mimic the natural beauty of real wood, laminate flooring features a high-resolution photographic layer that replicates the texture and grain of hardwood, offering a stunning aesthetic at a fraction of the cost. With a wide range of designs and finishes available, you can achieve the look of oak, walnut, or exotic woods without breaking the bank. Exceptional durability. Constructed with multiple layers of compressed materials, highly resistant to scratches, stains, and fading, making it ideal for high-traffic areas, homes, offices, Boutiques, Premium Showrooms. Its tough wear layer ensures that your floors stay looking new for years. Easy to maintain, requiring only regular sweeping and occasional mopping to keep them looking pristine. They are also quick to install, saving you time and effort.

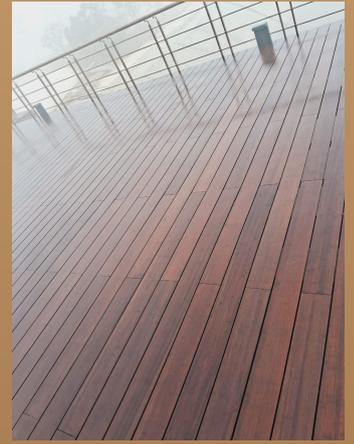

Cost-effective, high-quality flooring solution that combines beauty and resilience, laminate wooden floors are the perfect choice. Enjoy attractive prices, excellent quality, and a timeless appeal that will enhance your floor for years to come.

2

ENGINEERED WOODEN FLOORING

Engineered wooden flooring offers the perfect blend of elegance and durability. Crafted from multiple layers of real wood and high-quality plywood, it provides exceptional stability, reducing the risk of warping or shrinking. Its natural 3 mm wood veneer gives the warmth and beauty of solid wood, while its layered construction enhances strength and longevity. Suitable for various settings, including homes and commercial spaces, engineered wood flooring is easy to install, low maintenance available in a wide range of finishes, colors, and textures, it complements any interior style—from classic to contemporary engineered wood flooring is a sustainable, long-lasting investment that enhances both aesthetics and functionality.

3

SOLID WOOD FLOORING

A premium flooring option known for its natural beauty, durability, and timeless appeal. Made from single planks of hardwood like oak, teak, or maple, it adds warmth and elegance to any space.

This flooring is highly durable and can last for decades with proper care. It can be sanded and refinished multiple times, maintaining its fresh look. While it requires regular maintenance to protect against moisture and scratches, its rich texture and authentic feel make it a preferred choice for homes and commercial spaces.

Ideal for both classic and modern interiors, solid wood flooring enhances property value and aesthetic appeal.

4

HOSPITAL HOMOGENEOUS VINYL FLOOR

Durable | Hygienic | Easy Maintenance | Hygienic | Antibacterial | Antiskid | Antistatic | Stain Resistant | Low maintenance | Waterproof | Seamless | Joints PVC welded

Homogeneous 2 mm vinyl flooring is specially designed for hospitals, clinics, and healthcare facilities, offering seamless, high-performance flooring that meets medical standards. Made from a single-layer construction, it ensures uniform color and wear resistance, providing long-lasting durability even in high-traffic areas.

Key Features. Inhibits bacterial growth, ensuring a cleaner environment, Prevents dirt and moisture accumulation, enhancing safety. Reduces the risk of falls while offering underfoot comfort. Easy to clean with minimal upkeep costs. Withstands hospital-grade disinfectants for superior hygiene.

Ideal for wards, ICUs, corridors, and operating rooms, this 2mm vinyl flooring is the perfect solution for creating a safe, clean, and efficient healthcare space. 1 mm Vinyl Rolls are also available for Walls. Glue pasted to floor & Walls

Special ESD vinyl floor is available for high end OT, Xray, MRI & other Scanning rooms with 100% Antistatic features.

5 SPORTS PVC CUSHION VINYL FLOORING

A high-performance flooring designed for indoor sports facilities, gyms, fitness centres and kids play areas. Features a multi-layered construction with a cushioned backing provides excellent shock absorption, reducing risk of injuries and enhancing player comfort. Offers durability, slip resistance, and easy maintenance. The PVC surface ensures consistent ball bounce, while the cushioned layer minimizes joint stress, making it suitable for prolonged play.

Unlike traditional wooden floors, sports vinyl flooring is water-resistant, anti-bacterial, and resistant to wear and tear. It is available in various thicknesses (4.5 mm / 6 mm) textures, and colors to match different sports requirements. With quick installation with Pvc joint welding, cost-effectiveness, and long-lasting performance, PVC cushion sports vinyl flooring is a preferred choice.

6 PVC LVT FLOOR (Luxury Vinyl Tile)

PVC tile flooring with a wood design offers a perfect blend of durability, aesthetics, and affordability. Designed to mimic the natural wood, these planks feature realistic textures, grain patterns, and color variations, providing the elegance of wood without high maintenance. These flooring are highly resistant to scratches, stains, and moisture, making it ideal for high-traffic areas like kitchens, bedrooms, Living & Dining areas. Its multi-layer construction includes a wear layer for added protection, ensuring long-lasting performance.

Installation is easy, with options for glue-down & click-lock. PVC LVT is comfortable underfoot, sound-absorbing, and easy to clean, requiring only regular sweeping and occasional mopping. Wide range of wood-inspired designs, combines practicality with timeless style, making it a popular choice for modern homes and commercial spaces.

7 EXTERIOR DECK FLOOR

When choosing a deck for your garden or swimming pool, Solid Wood and WPC (Wood Plastic Composite) are two excellent options. Both available in Long planks & Square tiles. Solid wood decking, made from natural hardwoods like teak or ipe, offers a timeless, elegant look with rich textures. It is durable but requires regular maintenance, such as sealing and staining, deck oiling, to protect against moisture, UV rays, and pests.

WPC decking, a blend of wood fibers and plastic, is highly resistant to water, rot, and termites, making it ideal for wet areas. It requires minimal maintenance, does not warp or splinter, and comes in various colors and textures that mimic natural wood. For a natural, classic appeal, solid wood is the best choice, but if you prefer low maintenance and long-term durability, WPC is a more practical option. Your choice depends on aesthetics, budget, and upkeep preferences.

8 CARPETS

Carpets add warmth, comfort, and style to any space, making them a popular choice for both residential and commercial interiors. Available in wall-to-wall and carpet tile options, they cater to different needs and aesthetics. Wall-to-wall carpets provide a seamless, luxurious feel, perfect for homes, hotels, and large office spaces. They enhance insulation, reduce noise, and offer a soft underfoot experience.

Carpet tiles, on the other hand, are modular, easy to install, and replaceable, making them ideal for high-traffic areas like offices, retail stores, and conference rooms. They offer design flexibility, allowing for creative patterns and zoning. Both options come in various textures, colors, and materials, ensuring durability, stain resistance, and easy maintenance. Whether for a cozy home environment or a sophisticated commercial setting, carpets enhance interior aesthetics while providing functional benefits like sound absorption and improved indoor air quality.

9

EPDM RUBBER GRANULE FLOORING

**Safe | Durable |
Impact absorbing |
Cushioned**

EPDM rubber granule flooring is a premium safety surface designed for children's play areas, parks, Terrace Kids play area and other sports zones. Made from high-quality ethylene propylene diene monomer (EPDM) rubber, this flooring provides a soft, impact-absorbing surface, reducing the risk of injuries from falls. EPDM rubber flooring ensures a safe, vibrant, and durable surface for children to play freely and securely.

Key Benefits :

- ✓ Shock Absorption & Safety – Minimizes impact, ensuring child safety.
- ✓ UV & Weather Resistant – Maintains color and durability in outdoor conditions.
- ✓ Customizable Colors & Designs – Create fun, engaging play spaces.
- ✓ Slip-Resistant & Low Maintenance – Ideal for wet and dry conditions.
- ✓ Eco-Friendly & Long-Lasting – Made from sustainable materials with high durability.

10

PVC COMMERCIAL STRIP CURTAIN

PVC strip curtains are flexible, transparent barriers, designed to optimize industrial and commercial environments. They act as effective partitions allowing seamless movement of personnel, machinery, and vehicles, making them ideal for warehouses, food processing areas, cold storage units, and loading docks .

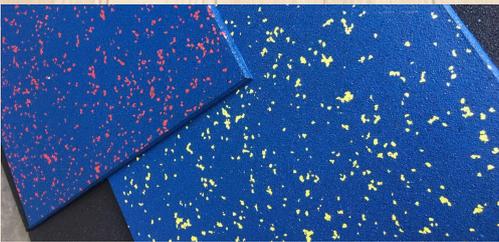

ENERGY EFFICIENCY: Maintaining temperature controlled zones, these curtains reduce HVAC strain, cutting energy costs by up to 30% in areas like refrigerated storage or heated & Regular warehouses.

ENVIRONMENTAL PROTECTION: Block dust, insects, fumes, and noise, ensuring hygiene in food processing or pharmaceutical settings and reducing workplace noise pollution . Easy to install and maintain, PVC strip curtains offer a cost-effective alternative to solid doors, with replaceable strips.

SAFETY & VISIBILITY: Transparency enhances safety by allowing clear visibility, preventing collisions, while UV-resistant and chemical-proof variants ensure longevity in harsh conditions .

CUSTOMIZATION: Available in multiple thicknesses (2mm–3mm) , Colours and specialized types—Polar (-30°C cold storage area), Non-Polar (Regular Temperature area)

Available in Roll form & custom made options depending on your door size or wide open area. Available in MS bracket & SS bracket options.
